Yes, I mentioned to Mark and Ken on Cornell that you are going to RRB to get it on its plate for this year, and that I don't think we will have written comments yet, but you can say to board we plan to work with you on #s for sediment in brook and look for action to control gw impact to brook. No need to add grants to full agenda. Thx

Nothing wrong with Mark hearing about it, I asked Haiyesh to let me know. Also, I asked Donna Gaffigan to let me know where we are on Maywood ROD, I thought we concurred with an exception on one gw number, lithium?
